Citroën revolutionises the automotive landscape with the Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

During the 90’s Le Töne had a major hit, “Joli Dragon”, and devoted himself to music for 15 years before progressively moving towards illustration. Since 2011 his creations have been exhibited in famous places such as the Pompidou Centre. An admirer of artists who know how to make the best of colour, Le Töne confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

The pioneering Citroën Type A enters mass-production.

The much-loved 2CV is created as a “safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage.” More than 5 million are made.

It’s a golden age for light and agile vehicles like the Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

Winners of the Manufacturers’ Rally Raid World Cup from 1993 to 1997; Rally Raid World Cup Drivers’ Champion five times in a row, eight Manufacturers’ Champion titles in WRC plus three in WTC… Citroën has continued to demonstrate exceptional sports pedigree upon returning to WRC in 2017.

To make choosing straightforward and enjoyable, we’ve worked hard to ensure that the information in this brochure is accurate at the time it was created in May 2018. It’s important to remember that Citroën can introduce changes to the equipment and accessories featured, although these wouldn’t alter the essential character and design of the models. Naturally, the images and specifications are also dependent on trim level and any options included.

We know how important it is to present the right facts and figures, so our brochures are regularly updated, however it is important to consult your dealer when ordering your vehicle to ensure you are advised of the latest specifications and equipment.
