11 The SpeedCam/Danger Zones package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots.

While the service is operational across most of Europe, it adapts as necessary when travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed. This option can be added to your Citroën Connect Nav subscription at any time. Please visit <https://services-store.citroen.co.uk/> to subscribe.

CITROËN C3 AIRCROSS COMPACT SUV

Citroën C3 Aircross brings fresh thinking and presence to the compact SUV class. The raised bonnet profile, large wheels and bold striking chevrons with LED light signature create a unique character, whilst the inspiring raised driving position provides epic all-round visibility.

- The SpeedCam/Danger Zones package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots. While the service is operational across most of Europe, it adapts as necessary when travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed. This option can be added to your Citroën Connect Nav subscription at any time. Please visit <https://services-store.citroen.co.uk/> to subscribe.

+ Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO₂ figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. The CO₂ figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

+ Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO₂ figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. The CO₂ figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

* The Manufacturer's 'On the Road' recommended retail price includes the following: delivery to dealer and number plates £583.33, V.A.T. £116.67, Government first registration fee £55 and Graduated Vehicle Excise Duty (see page 48 for details).

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). Please see our Prices and Specifications brochures or contact your local Citroën dealer for the most up-to-date prices and specification details for all models.

+ Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO₂ figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. The CO₂ figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

* The Manufacturer's 'On the Road' recommended retail price includes the following: delivery to dealer and number plates £583.33, V.A.T. £116.67, Government first registration fee £55 and Graduated Vehicle Excise Duty (see page 48 for details).

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). Please see our Prices and Specifications brochures or contact your local Citroën dealer for the most up-to-date prices and specification details for all models.

+ Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO₂ figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. The CO₂ figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

* The Manufacturer's 'On the Road' recommended retail price includes the following: delivery to dealer and number plates £583.33, V.A.T. £116.67, Government first registration fee £55 and Graduated Vehicle Excise Duty (see page 48 for details).

+ Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO₂ figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. The CO₂ figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

* The Manufacturer's 'On the Road' recommended retail price includes the following: delivery to dealer and number plates £583.33, V.A.T. £116.67, Government first registration fee £55 and Graduated Vehicle Excise Duty (see page 48 for details).

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). PERFORMANCE WITH CARE FOR THE ENVIRONMENT

With its sophisticated and technologically advanced range of engines, Citroën is well placed to reconcile performance with low taxation levels and reduced environmental impact.

Today more than ever, this means that when choosing a Citroën vehicle you are guaranteed access to superb value for money motoring.

For example, the Citroën C3 Flair, when specified with the BlueHDi 100 S&S Diesel manual engine produces only 95g/km of CO₂ and therefore qualifies for the E band of Vehicle Excise Duty.

COMPANY CAR BENEFIT-IN-KIND TAXATION CHARGES

The Company Car Benefit-In-Kind Taxation charge is based upon the type of fuel used, and the level of CO₂ emissions, measured in grams per kilometre (g/km). The table opposite shows the percentage of the car's list price to be taxed (P11D value[†]).

For example a Citroën C4 Cactus Hatch BlueHDi 100 S&S manual Flair has a CO₂ emissions figure of 96g/km and a P11D figure of £20,720.

The BIK value would therefore be 24% (20%+4%)¹ x £20,720 = £4,972.80 (equivalent to £82.88 pcm for a 20% rate tax payer).

More information about the Company Car Benefit-In-Kind Taxation Charges can be found on www.citroen.co.uk/fleet-and-business/citroen-business or by contacting Citroën Fleet Connect on 0800 023 4000.

GRADUATED VEHICLE EXCISE DUTY (ROAD FUND LICENCE)

The Graduated V.E.D. bands classify all new cars first registered from 1st May 2017 into one of thirteen Vehicle Excise Duty bands, depending on their type of fuel and carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). There are two V.E.D. rates, a rate for the first year and a rate for subsequent years.

Band	CO ₂ g/km	First year VED	First year Diesel VED	Annual Tax
		2018/19		
A	0	£0.00	£0.00	£0.00
B	1-50	£10.00	£25.00	£145.00
C	51-75	£25.00	£110.00	£145.00
D	76-90	£110.00	£130.00	£145.00
E	91-100	£130.00	£150.00	£145.00
F	101-110	£150.00	£170.00	£145.00
G	111-130	£170.00	£210.00	£145.00
H	131-150	£210.00	£530.00	£145.00
I	151-170	£530.00	£855.00	£145.00
J	171-190	£855.00	£1,280.00	£145.00
K*	191-225	£1,280.00	£1,815.00	£145.00
L	226-255	£1,815.00	£2,135.00	£145.00
M	Over 255	£2,135.00	£2,135.00	£145.00

¹ From 6 May 2018 drivers must add 4% (increased from 3% at Autumn Budget 2017) to their appropriate percentage if the car is propelled solely by diesel (up to a maximum of 37%). Cars that meet the Real Driving Emissions Step 2 (RDE2) standard are exempt from the diesel supplement.

Cars with zero CO₂ emissions will be exempt from company car tax for a 5 year period starting in 2010-11.

Special rules apply to cars with ultra-low emissions, a reduced appropriate percentage of 5% applies, from 6 May 2010 for five years, for company cars with an approved CO₂ figure not exceeding 75g/km.

* Band K includes cars that have a CO₂ emissions figure of over 225g/km but were registered before 23 March 2006.

[†] The new Car's price to be taxed includes:

- Manufacturer's Recommended Retail Price (inc V.A.T.)
- Delivery to Dealer and Number Plates (inc V.A.T.)
- The list price of an option or an accessory (inc V.A.T. plus delivery and fitting charges if relevant). Some exceptions apply but excludes:
- Graduated Vehicle Excise Duty
- Government First Registration Fee

CITROËN & YOU

A network of Citroën New Car Dealers, Authorised Repairers and Parts Distributors are equipped and trained to meet the needs of today's Citroën customer.

Dealers can offer advice on vehicle funding; via Citroën Contract Motoring with packages such as Contract Hire, Finance Lease or Lease Purchase for Business Users, or via Citroën Financial Services with Hire Purchase or Elect 3 Personal Contract Purchase for Retail buyers.

In addition Authorised Repairers have a team of technicians skilled in the care and maintenance of Citroën products.

CITROËN ELECT 4

Elect 4 is an alternative way to enjoy a new Citroën without the cost of ownership. Instead of owning the car, you rent it for a fixed period and then return it to your local dealer where you can exchange it for a brand new one. You set your preferred contract terms and anticipated annual mileage. With leasing which can be arranged for a period up to 4 years, Elect 4 offers you an alternative method of funding your new Citroën. One initial bulk advance rental will be required. This is between 14%-16% of the 'On the Road Recommended Retail Price' plus any advance rental contribution from Citroën UK. Excess mileage charges may apply if the agreed annual mileage is exceeded. Citroën contribution on selected models only. Payment of the optional final rental extends the rental term (this does not transfer title of the vehicle) & requires an annual rental equivalent to one month's rental. All based on a 36 month contract with an annual mileage set at 6,000 miles on C1, C3, C3 Aircross, Berlingo Multispace and 8,000 miles on all other models. All rentals inclusive of VAT. Finance subject to status. Over 18s only. Finance provided by and written quotations available on request from PSA Finance UK Limited (company registration number: 01024322) having its registered office at 61 London Road, Redhill, Surrey, RH1 1QA. PSA Finance UK Ltd is authorised and regulated by the Financial Conduct Authority.

CITROËN FLEET AND BUSINESS SALES

All Citroën New Car Dealers are dedicated to meeting the specialist needs of both the fleet and business buyer. Their comprehensive service can include advice on important business vehicle decisions, such as alternative acquisition methods, disposal of existing cars and vans, priority servicing and much more. In short, their expertise aim to provide a 'total transport solution' for all your fleet or business vehicle needs. If you would like to contact Citroën direct for further information, please call Citroën Fleet Connect on 0800 023 4000. Or look us up at: <http://business.citroen.co.uk>

Full details available on request. Credit subject to status and to over 18s only. A guarantee may be required. Finance provided by and written quotations available on request from PSA Finance UK Limited (company registration number: 01024322) having its registered office at 61 London Road, Redhill, Surrey, RH1 1QA. PSA Finance UK Ltd is authorised and regulated by the Financial Conduct Authority. Telephone calls may be recorded or monitored for training or quality purposes.
